MARKET NOTICE

HUPX IDM Intraday Market

Iktatási szám / *Notice #*: HUPX-MN-IDM-2024-0004

Dátum / *Of*: 30/04/2024

Tárgy / *Subject*: *Definition of Intraday Market Order bandwidths*

1 Definition of order bandwidths

The HUPX Ltd. according to the Fee Schedule, **from effective date of 1ˢᵗ June**, defines below order bandwidths applicable to system extra bandwidths fees:

- 0 – 10 000 order events per Member per trading day included in the system fee.

- The size of extra bandwidths are additional **25 000 order events per Member per trading day**. This means that according to the Fee Schedule and Technical Requirements, below bandwidths are available from 1st June:

  - **0-10 000** order events per trading day: **included in system fee.**

  - **Bandwidth 1:** 0 – 35 000 order events per trading day: **250 EUR / month**

  - **Bandwidth 2:** 0 – 60 000 order events per trading day: **500 EUR / month**

  - **Bandwidth 3:** 0 – 85 000 order events per trading day: **750 EUR / month**

- Order events and the technical limit is defined in the HUPX Technical Requirements (Annex II of the Market Rules).

- HUPX Ltd. provides daily reports on the use of these bandwidths for the Members on the sFTP server.

- According to the Fee schedule, exceeding the pre-ordered bandwidths more than once in a month will result in invoicing twice the next (or the Bandwidth 3) bandwidth.

- Ordering the bandwidths will be possible via membership@hupx.hu, while invoicing will be included in the monthly invoices of HUPX IDM membership.
